Representative Dan Flynn Announces start of High School Aerospace Scholars

State Rep. Dan Flynn is pleased to announce the launch of this Year's High School Aerospace Scholars. This will enable selected Texas students to explore and become a part of NASA's plan for space exploration, which will send humans back to the moon, then on to Mars and beyond. After they utilize their math and science skills to complete 10 Web-based assignments during the school year, they will travel to Johnson Space center in Houston during the summer and use those same skills to help investigate options for sending humans to Mars along side their peers and real NASA scientist and engineers.

High School juniors interested in science, math, or engineering are encouraged to apply for this extraordinary opportunity on line at <http://aerospacescholars.jsc.nasa.gov/>.

If you have questions or need more information please contact my district office at:
